Property Description

5 Acre Building lot In Uvita Ready To Build On Now with legal water! At 630 feet, this lot is only 7 minutes from the heart of Uvita with easy road access. Two building sites offer expansive ocean views, including spectacular sunsets and a direct view of the Whale's Tail from the main building site and Isla Cano in the distance. The property has many options including potential for a primary residence with additional guest home or rental property which is comfortably isolated from the main building site. The locations of building sites offer a future option of subdividing into two lots while maintaining privacy. Stone border steps descend from the main building site to a creek and waterfall below located inside the property, with an observation area at the halfway point. An additional hiking trail also covers two sides of the 5-acre perimeter, following much of an active stream and many smaller waterfalls.
