Property Description

Located in the exclusive community of Lagunas de Barú and conveniently situated just a short ten minutes drive from Playa Dominical. These dream parcels have astonishing river and valley views as far as the eye can see. This development has some of the best roads in this part of the country and are exceptionally well maintained with thick gravel and concrete gutters. Electrical service is already available on the road, and the water is provided by the Lagunas community water system which is extremely clean and safe to drink. Waterlines are under the roadbed and already distributed to each property. The water use permits are preexisting, thereby guaranteeing the availability of water when you do decide to build. Building sites have initial landscaping, and each parcel is very private. Additionally, the owners have set aside a 10-hectare (25 acres) reserve to ensure the tranquility of the area is maintained in the future, as well as providing a refuge for the wildlife including parrots, toucans, and monkeys.
