Property Description

This lot has a long, level building site with easy access but full privacy. Big enough for a main house, a cabin and a pool plus parking, each of the structures can have the same beautiful view of the Pacific coast up to Manuel Antonio. It is in the community of Lagunas about 13 minutes above Dominical, with a well established shared water system and cooperative road maintenance. You will have as much of a sense of community as you wish, with plenty of neighbors a few minutes away but none visible from your front deck, pool or master suite. Building costs for an impressive home are about \$125/square foot if you want to include a pool, appliances and a few other special features. This site is easily accessed by work crews and trucks delivering materials.
