Property Description

This beautiful house is located just a couple of miles from the center of the city. The house has two rooms, one of them in the lower part and the other is an open space on the second floor that can be privatized by simply adding an additional wall, at the same time it has a space in the lower part that can be take advantage and be converted into at least one more room. The property is located in a very quiet area. The house has a small balcony from which you can go outside to catch the afternoon breeze while enjoying the views that are offered in the distance. It has a spacious kitchen with ceilings designed with very strong and finely crafted wood.
