Property Description

This charming single-story house has been tastefully decorated and furnished by the owner. It features two well-separated bedrooms (one on each side of the house), two bathrooms, a kitchen/dining/living area located in the center, and a beautiful outdoor terrace spanning the entire width of the house. There is a walk-in closet right next to the en-suite bathroom of the master bedroom. The laundry room is located in an exterior building, which also includes a separate storage area. The design of the house allows for the easy addition of a third bedroom by converting the carport. On the side of the house, there is a stunning infinity pool with direct access from the terrace. The gently sloping 5000m² garden is nearly entirely usable and already features a few fruit trees. The property offers breathtaking views of the surrounding area. From the upper part of the property, you can catch a glimpse of the Central Valley and the surrounding volcanoes.
