Property Description

This two-level home boasts an atypical yet functional design. On the lower level, you will find a spacious area that serves as both a garage and a laundry room. Upon entering the house, there is a small room that can be used as a cozy living area, followed by a bedroom and a bathroom. The upper level features a large open space with a fully equipped kitchen and a comfortable living area, along with a guest restroom. Additionally, there is a bedroom with an en-suite bathroom. Outside, a large enclosed terrace provides a generous dining and relaxation space with stunning views of the surrounding mountains. All windows can be opened, allowing fresh air to circulate throughout the space. A unique feature of this property is the electrically controlled access ramp, which transforms into a staircase, leading to a rooftop terrace with breathtaking panoramic views! The outdoor space at ground level offers enough room to accommodate a swimming pool.
