Property Description

Those who are looking for a place to develop your own rural living homestead will find several appealing things about this property: The view is open and beautiful across the valley to mountains on the far side. A piece of it is open grassy area where you could plant more fruit trees or raise farm animals. There are already a number of fruit trees producing seasonally. There is a little 2-story starter home that, while very basic, offers a place to stay while you are building your own design. The bedroom is kind of like a loft and the first floor has a basic kitchen setup. There is a carport already in place for one car. Water flows from two springs on the land, joining streams that also flow across it. Your water supply is right on your own land and the streams are soul filling places to sit, read, explore, dip into pools. This is about maybe 25 minutes from the nearest beach depending on how you drive.
